Gerardo Ortega et al v. J.B. Hunt Transport, Inc.

United States District Court, Central District of California, Western Division
Case No. 2:07-CV-08336-FMC-JCx
Declaration of Brendan P. Burke and Candice L. Rosevear, July 9, 2018

EXPERT CONSULTING EXPERIENCE

- Developed various empirical analyses to address claims involving cartel behavior, price-fixing and bid-rigging in various confidential market manipulation matters.
- Provided expert testimony for various confidential wage and hour matters, including FLSA class actions and PAGA representative actions, in which I analyzed HR data, timecard data, building access data and driving distance data to estimate damages.
- Analyzed liability and damages in a LIBOR manipulation matter, which included the analysis of a wide range of financial derivatives.
- Served as an expert consultant for various confidential class action litigation matters in which I analyzed HR data to evaluate claims of age, race and gender discrimination in the workplace, and estimate damages.

- Served as an expert consultant for a Fortune 100 client for which I developed logit and multivariate linear regression models to quantify the effects of candidate and employee characteristics on hiring, promotion, salary growth and reductions in force as part of a disparate impact consulting analysis.
- Served as an expert consultant for a medical malpractice dispute involving a single Plaintiff in which I computed lost wages and also prepared counsel for the deposition of the lost wages expert for the opposing side.
- Managed one of the highest profile antitrust cases in history. Efforts led to a favorable settlement for client.
- Managed and directed the economic analyses for various class action securities fraud matters, which involved tests of market efficiency, event studies and the calculation of class-wide damages.
- Conducted market concentration and impact analysis for a national health food chain as part of merger and acquisition antitrust matter.
- Developed a process for estimating the economic impact of park district assets on property values as part of a *pro bono* consulting engagement with the Chicago Park District and the Office of the Mayor. Process included geospatial analysis of GIS data and hedonic price modeling.
- Extensive experience analyzing large, complex, multi-dimensional datasets.
- Extensive experience designing financial models and executing other econometric and statistical procedures in SAS, Stata, Python and R software.
