**SELECT EXPERIENCE:**

Securities Fraud Valuation

Managed high profile class action securities litigation expert reports and damages analyses, focused on market efficiency, materiality, and loss causation. Took a lead role on organizing and crafting rebuttal reports.

Specialized in assisting counsel with the construction of plans of allocation for stocks, bonds, and options in dozens of securities class action matters. Estimated aggregate and individual damages.

Evaluated unjust enrichment from vested accelerated options using Black-Scholes and other option pricing models.

Labor and Discrimination

Expert consultant responsible for producing detailed reports on representative hiring pools that satisfy OFCCP regulations.

Expert consultant directing the analysis of potential disparate impact by race, sex, and age regarding proposed reduction-in-force matters involving large pharmaceutical and computer hardware companies.

Managed and conducted analyses of wages, wage growth, promotion rates, termination rates, and hiring rates using corporate payroll records for large labor discrimination litigation matters.

Financial Regulation

Analyzed millions of trades and quotes searching for patterns in market manipulation in the LIBOR, FX, and precious metal markets.

Expert consultant for major financial planning firms with regard to FINRA mandated B and C class mutual fund remediation. Tested hypothetical scenarios to guide negotiations regarding the final remediation plan. Our calculations were used for individual cash payments and security transfers.

Expert consultant for a major financial planning firm with regard to FINRA NAV transfer remediation. Directed the programming effort tracking trades and resulting in payments sent to harmed clients.

Replicated complex residual models stemming from home equity securitizations and evaluated the reasonableness and efficacy of the models via sensitivity analyses.
